It was in a front end accident, that damaged the hood, left fender, grill, front bumper, and left headlight. The steering wheel and roof airbags were deployed, the air bags were replaced and the system was tested to ensure there are no issues with the air bag system. No Frame damage. Truck has been professionally repaired. There is nothing wrong with the truck now. Had an alignment done on the truck also, it runs and drives excellent. I have pics of the damage.
